## About Me

---

Experienced Javascript Developer with a strong background in the Blockchain, worked in Blockchain Council as a Blockchain Intern for 1.5+ years. I'm a curious person who loves to explore new areas and find learning an exciting process.

## Open Source Contributions

---

Public Lab: [Link](#)

Hyperledger Fabric: [Link](#)

## Work Experience

---

### Blockchain Intern (Blockchain Council) - 1.5+ Year

- Created a Supply Chain Management Application using Hyperledger Fabric, HTML, CSS, JavaScript. (Proof of Concept)
- Built basic demonstration applications with Express, Node.js, and React.js.
  - Image Galleries, Password Strength Evaluator, Auto Scrolling Pages, Bookmark Manager, E-commerce Applications.

## Projects and Other Works

---

### Front End

#### E-Commerce Application : ProShop (MERN)

Built using : ReactJs, ExpressJs, NodeJs, MongoDB [Link](#)

#### Avatar Fandom Page

Built using : HTML/CSS, JavaScript [Link](#)

#### Loso : Responsive Website of a Smartphone Brand

Built using : HTML/CSS, Bootstrap, JavaScript, jQuery [Link](#)

### Blockchain Projects

#### Blockchain Based Decentralised Energy Using Hyperledger Fabric

Built using : IBM Blockchain Extension, Hyperledger Fabric, NodeJs, CouchDB, Docker, Minifab [Link](#)

#### Fruit Supply Chain Tracing App using Blockchain

Built using : IBM Blockchain Extension, Hyperledger Fabric, NodeJs, CouchDB, Docker, Minifab [Link](#)

## Skills

---

HTML | CSS | Javascript | Reactjs | Nodejs | Python | Hyperledger Fabric | Git | GitHub | Bootstrap | Docker | Unix Shell | JSDoc | Markdown | Prompt Engineering

## Academics

---

B.Tech : Computer Science Engineering | Year of Completion : 2023 | CGPA: 7.14

## Soft Skills

---

Communication, Critical Thinking, Problem Solving, Adaptable, Time and Self Management, Conscientious, User Empathy, Design Empathy
